

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A decorative structure comprising:

a panel having a first face and a second face;

a support structure aligned adjacent said second face of said panel, the support structure comprising a first member having a keyed aperture and a cross member disposed in said keyed aperture, wherein the keyed aperture provides twist lock attachment of the cross member to the first member; and,

a first clip fastening said support structure to said panel and extending along a portion of said first face of said panel.
2. (Previously Presented) The decorative structure of claim 1, wherein said first clip comprises a convolute retainer, wherein a portion of said convolute retainer extends along said portion of said first face of said panel.
- 3-4. (Cancelled)
5. (Previously Presented) The decorative structure of claim 1, wherein said first member is curved.

6-7. (Cancelled)

8. (Previously Presented) The decorative structure of claim 1, wherein said cross member is curved.

9. (Previously Presented) The decorative structure of claim 1, further comprising an intersection clip engaging said first member and said cross which further locks said first member and cross member in position.

10. (Cancelled)

11. (Previously Presented) The decorative structure of claim 9, wherein said intersection clip comprises two achiral halves.

12. (Previously Presented) The decorative structure of claim 11, wherein said intersection clip comprises a convolute saddle member which integrally connects the two achiral halves.

13. (Previously Presented) The decorative structure of claim 1, wherein said clip comprises a major leg engaging said support structure.

14. (Previously Presented) The decorative structure of claim 13, wherein said clip comprises a minor leg engaging said support structure.

15-21. (Cancelled)

22. (Previously Presented) The decorative structure of claim 1, wherein said panel is maintained in a flexed configuration by said support structure.

23-25. (Cancelled)

26. (New) The decorative structure of claim 1, wherein the support structure is positively locked to the panel.

27. (New) The decorative structure of claim 26, wherein the positive locking is achieved via frictional engagement.
